

## Human Factors - Real Life Applications to Safety

Human Factors in aviation safety is a broad topic that covers hundreds of textbook pages. This course will summarize the major areas that impact human performance and how those effects fit into the incident sequence. Armed with that information, the audience will learn about practical methods of minimizing errors caused by human factors inside and outside of the cockpit.

**Directions:** The Vigilante Room at Sanford Airport; it's in the Rental Car Building near the Commercial Airline Terminal. If you fly in to KSFB for this WINGS event, you can park at Millionair FBO and get a courtesy ride over to the seminar's location in the Vigilante Room.

### A message from the National FFASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
